Hi Kristen,

Directly to me would be great and I can pass it along.

Thank you :)!

Camille,

Would you like me to respond to you directly regarding the Lot 11 bio report or respond to the entire group?

Thanks,  
Kristen

Hi Bob,

I received the revised Grading Schedule for Lots 9 and 10 and the Grading Schedule for Lot 11. Here's what we are waiting for:

1. I am waiting for SWCA to sign off on woodrats relocation, Lot 11 bio report, and silt fencing... Per our discussion, you will send them photos of the corrected silt fence.
2. I have a meeting with Steve (Director) tomorrow regarding Approval of the Wet Season Exception which is his decision.
3. Comments on Lot 11 : There appears to be an error regarding the "erosion control mat" on the Foundation and Construction EC Plan on page C11.50. Please have BKF fix and re-submit 3 copies to Building Counter.

In the next email, I will send you reminders of requirements during construction. Noel had agreed to all of this in the past, but as there has been much time since, and I want to re-confirm that construction will proceed as required.

Thanks
